

Melissa D. Johnson, PharmD, MHS

Associate Professor of Medicine
Division of Infectious Diseases & International Health
Duke University Medical Center
Liaison Clinical Pharmacist
Duke Antimicrobial Stewardship Outreach Network (DASON)
Durham, NC

Dr. Melissa D. Johnson, PharmD, MHS, AAHIVP is an Associate Professor of Medicine in the Division of Infectious Diseases & International Health at Duke University Medical Center in Durham, North Carolina. She also serves as a Liaison Clinical Pharmacist for Duke Antimicrobial Stewardship Outreach Network (DASON), which performs consulting services for 30 hospitals in 6 states. After obtaining a Bachelor of Science in Biochemistry from the University of Georgia, she completed her Doctor of Pharmacy at Campbell University and a Fellowship in Infectious Diseases Pharmacotherapy at DUMC. She also completed a Masters of Health Science in Clinical Research at Duke University School of Medicine, concentrating on biostatistics and epidemiology.

Her clinical research interests include invasive fungal infections in immunocompromised hosts with special focus on immunogenetics, pharmacogenetics, and pharmacodynamics. She has served as investigator for numerous clinical trials with antifungal, antiretroviral, and antibacterial agents. Dr. Johnson has been an active member of both the DUMC and Durham VAMC Antimicrobial Stewardship programs. She has published in numerous peer-reviewed journals, and is a reviewer for *Antimicrobial Agents and Chemotherapy*, *Clinical Infectious Diseases*, *Pharmacotherapy*, and *Journal of Antimicrobial Chemotherapy*. She has been an invited international and national speaker on topics such as antibiotic resistance, HIV, invasive fungal infections, and management of bacterial infections. She is an active member of the American College of Clinical Pharmacy (ACCP), American Society of Microbiology, and Society of Infectious Disease Pharmacists.
